Utilities notified (given by the One Call Center): _____

Ticket Number (Given by the One Call Center): _____

Before a ticket number can be issued, the One Call Center operator will verify all information to ensure that it is accurate, and then list the Operators that will be notified. The Operators notified are based on Township, Range, Section, and 1/4 Section. If you can provide this information, or GPS coordinates, it will speed up the call taking process. You may be asked to hold if you cannot provide this information.
